of Mr. Saltzman. The fire, increasing
in violence by the crackers and fire-works
were constantly exploding, soon filled the
interior of the building, which was quickly consumed,
and the contents, valued at about \$40,000, and
almost all consumed. During the fire, several
and other marks were taken from the street
in every direction, but fortunately did no serious
injury to the firemen or bystanders.

THE KINNEY EXPEDITION.—The New York
Evening Post says that Col. Kinney departed for
his Central American expedition, with eighteen

manded by Capt. Norris, on the evening of the
6th June, taking nineteen passengers, among
whom were Col. H. L. Kinney, J. R. Swift, S. J.

A RICH CAPTURE.—The barque *Mag-
pie* which was recently taken into Mobile and
on account of the warlike manœuvres with
the sea freighted, was, it appears, not a
warlike vessel, but a small schooner, called the
Cuban Juan, and had no connection with
Nicaraguan expedition, as at first supposed.
The *Mobile Register* of the 10th instant says
this vessel is a rich prize, and enumerates
part of her cargo, 3,000 rifles, 1,800 Col-
umbers, 5,000 pounds of powder made in
England, 500 round shot, ammunition, a
battery of brass field pieces all complete,
harness, equipment, cartridges, and a
match, lots of picks and sabres, a quan-
tity of muskets, and five hundred coats.

DIMERS FOR SLAVERY.—In the Circuit
for Lewis county, Ky. a suit for slavery
was brought by the plaintiff, John C. Giddings
Eliza Bartley, W. M. Giddings—walestale
and appeared rendered for \$10,000. The
defendant is the said that Giddings has
his address to Miss Bartley, and had be-
jected, previous to making the slanderous
charge which the jury has so signally pun-

OUTBREAK IN NORTHERN MEXICO

A telegraphic dispatch, dated yesterday, from Mexico City, Mexico, by the New Orleans, announces that the city of Monterrey, in Northern Mexico, was taken on the 27th inst. by a party of Revolutionists. General Escobedo, who was in the city, was taken prisoner, together with his officers and troops, about seventy in number, and a quantity of munitions of war, including twenty cannon.

The following extracts from the *Corporal Christi Advertiser* of the 23 inst. will give some idea of the state of affairs:

"The news from Mexico is important and exciting. It appears that orders from Santa Anna were issued, to shoot all the officers and many some of the leading citizens of Monterrey and Lompasa—among them Don Santiago Vidouré, late Secretary of State and Minister of War, and Don Juan de Dios, existence of these private orders leaked out, and Don Santiago Vidouré dispatched a courier to Lompasa with orders to arrest the Governor, Manuel de la Parra. Anna's emissary, however, was met by two hundred armed citizens, who refused to surrender. His life was spared, and he was taken to the city of Mexico, where acknowledging that his orders were to shoot some eight of the leading citizens of Lompasa,

LOUIS INTELLIGENCE favors the project. But it decries that the Convention should be composed exclusively of slaveholders. "It says it will in that case 'be conservative,' and it then adds: 'After a lifetime residence in the South, we can say this with truth—that we never yet saw a slaveholder who was not a villain.' The outrages have been committed in the South-mobs have been raised, persons destroyed, persons outraged, and life and limb in the hands of the mob. But we have never known an instance in which slaveholders themselves have been the members of the mob. The actors have been the ignorant, the ignorant and the fanatics, the fanatics and the base, the base and the panderers to position and wealth that they could never aspire to—who thought by thus acting they might gain favor from the masters, men of color, and the people willing to follow their masters. But we have never known slaveholders who do not espurn and despise the trucking and law-breakers thus acting in their name."

VERMONT.—The Council of Censors, with power to overhurl the whole State Government once in seven years, met, a few days since, in Montpelier, but found nothing to do. The Council of Censors is a body of nine members, her way, with no need of Constitution tinkering.—*Boston Atlas.*

BISHOP UNDERKOD, who is allowed a salary of \$2,500, instead of \$6,000, which was his salary before his suspension, does not give his receipt in full, but on account, when payments are made to him. He says that he is indebted to the whole former salary, the debt is constantly increasing, and he or his heirs may bring a suit at law to recover it, with interest.

GENERAL EMANCIPATION.—In the late revolution in Peru, the slaves were all set free. The Emperor, however, thought that not all who would join his banner; but Castille held the former at his own game, and promised freedom unqualifiedly to all. He was successful, and Eschiquien had to save himself by flight.

AN Eastern paper counsels the New Hampshire Legislature to "not only send mark all its resolutions and doings;—promote to free nurseries, and to 'be aware of Mr. Patterson.'"

ANTHONY BURNS, the fugitive slave who was surrendered in Boston, and afterwards purchased from his master, has gone to Oberlin College, Ohio, to be educated.

that the Liver Pills are the best for bilious com-
plaints ever offered in this section of country.

It is acknowledged that the Liver Pills are the best for chronic
cases of hepatic derangement, or diseases of the liver, the
 proprietors of Dr. McLean's Pills were not prepared for
the success which has attended their use in the general use
of a curative capacity. In this respect, this invaluable
 medicine has exceeded their most sanguine expectations,
 and it is believed that it will be introduced into every
 family in the United States.

¶ Purchasers will be careful to ask for Dr. McLean's
 Liver Pills, and to see that the name is on the wrapper.
